

**Organic Availability Verification Letter
And Non-GMO Verification**

Purchaser/Receiver: _____

Seed used for organic production needs to be produced from organic seed if available. If organic seed is not available, then NON-GMO conventional seed may be used as a substitute for organic seed.

Please check one of the following:

- Seed WAS available organically. To the best of my knowledge the seed listed below is not the result of Genetic Engineering classified as GMO (genetically modified organisms).
- Seed was NOT available organically. To the best of my knowledge the seed listed below was not available from organic production. Also, to the best of my knowledge, this seed is not the result of Genetic Engineering classified as GMO (genetically modified organisms).

Seed Variety

Seed Supplier: Please sign this form so we can have verification for our records that the produces requested or purchased from you were not available from organic production.
